STATINTL

MEMORANDUM FOR: [REDACTED]

SUBJECT : Records Center Construction Costs

1. Today Record Center-type construction averages \$15 per square foot. Our interest in a 30,000 square foot addition (to hold some 60,000 cubic feet of records) will cost about \$450,000. Shelving costs 80 cents per cubic foot installed (another \$48,000).

2. Ordinary cinder block construction runs \$10 per foot, but for us the necessary [REDACTED] will be higher. This \$15 average includes heat, humidity control and air conditioning. The shelving is from the Federal prisons and generally used by us and GSA.

3. The National Archives and Records Service authority on such building information is Mr. Charles Henderson, code 13 - extension 35185.
